

K-love ministers to so many people. I get to hear encouraging bible verses, tips on family matters, and great contemporary christian music. If this were taken away, encouraging words wouldn't be heard, and this would be one more way Gods message would be shut out. I do believe that K-love is in the best intrest of the public because of the message that it does carry. So many unbelievers or people suffering do get the comfort they need. Not just by the music and little tid bits that they say but also by the people that they have to pray for you and the pastors that take to people in serious need. Please keep K-love on air. It is the only station I listen to.
